

# PROSHOW

- 6 -

One Day Workshop

## INCLUDES

- Working with images & layers.
- Working with the timeline & music.
- Using transitions.
- Adding motion.
- Using Keyframes.
- Working with titles.
- Customizing your output.

This all day workshop will get you creating exciting audio-visual slide shows from original inspiration to finished production using the ProShow 6 program. Create shows for your large screen TV, computer, digital projection or web site where the images and music work together for a great "AV experience" that will amaze your audience.

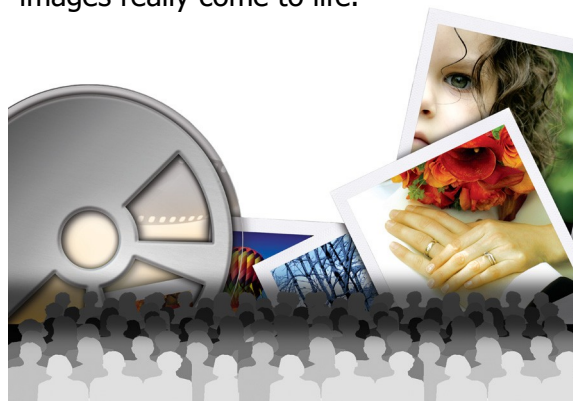

## TAKE YOUR SLIDE SHOWS TO THE NEXT LEVEL

Ever wonder why some slide shows excite the imagination by integrating the flow of the images to the soundtrack while others just seem like an progression of endless images with background music?

Would you like to assemble your images into co-ordinated slide shows with music for display to family & friends on the big screen? Need to make a presentation at work that will command attention? Want to tell a story... create an emotional response... add impact to your images... or just WOW your audience?

This all day ProShow 6 workshop will show you how to go beyond doing simple "slide shows" and reveal how to make your images really come to life.

One Day Workshop

## MAKING IMAGES COME TO LIFE!

*Learn the techniques  
to take your slide shows  
to the next level.*

**SATURDAY, JUNE 21ST**  
**9:00AM TO 4:00PM**

**BURLINGTON  
ART CENTRE**

**BURLINGTONPHOTOWORKSHOPS.COM**  
**Paul Sparrow (905) 523-5665**  
**email: psparrow@cogeco.ca**

## WORKSHOP TOPICS

### **Working with the Timeline, Images & Layers**

- How to work with the timeline effectively.
- How to place and work with multiple images.
- Creating and using image layers.

### **Constructing the Soundtrack**

- How to work with and edit the music track.
- Using multiple music tracks with cross fades.
- Using sound effects and voice overs.

### **Using Transitions**

- How to select transitions that work.
- Timing transitions to the soundtrack.
- Special effects transitions.

### **Adding Motion & Using Keyframes**

- When to add motion to your images.
- Creating unique movements and motion.
- Using "Keyframes" to time movements.

### **Working with Titles**

- Creating titles that work with your show.
- Adding motion effects.
- Creating unique titles outside of ProShow.

### **Customizing your Output**

- Optimizing executable outputs.
- Rendering your show for web presentations.
- Outputting your show to video.

**About the presenter:** Paul Sparrow has been professionally involved as a photographer and multi-image audio-visual producer for over 30 years.

An award winning presenter, Paul has conducted extensive workshops and seminars on audio-visual production and in particular ProShow Gold and ProShow Producer. He has been a presenter at numerous photographers' organizations including: the keynote presenter of audio-visual shows at the 2014 GTCCC "Capturing Light and Shadows" conference, the 2011 Canadian Camera Conference, the Latow Photographers Guild's Annual Audio-Visual Festival, the New England Camera Club Council Convention, the Niagara Regional Camera Clubs Convention, the Professional Photographers of Ontario and numerous camera clubs around the country. He also teaches in depth 8 week courses on digital photographic techniques and Photoshop to both amateur and professional photographers.

*"As a photographer I use the audio-visual medium in unique and imaginative ways that have a strong emotional impact using images and music to bring the content to life. Not just simple slide shows but audio-visual experiences the goal is to arouse in the audience an emotional response to the images beyond just what is seen and make the audience really "experience" them in a way not present in the images themselves."*
